- ◆ Ss. Cyril&Methodius University of Skopje, Faculty of Electrical Engineering and Information Technologies
- ◆ University of Maribor, Faculty of Energy Technology
- ◆ Polish Society of Applied Electromagnetics

General information

The International Scientific Committee and the Organising Committee are very pleased to welcome you to participate in 9th International Symposium on Applied Electromagnetics – SAEM'24, which will be held in Szklarska Poręba, one of the most charming cities in Polish mountains.

The Symposium continues tradition of joint conferences, organized in previous years between Slovenia, Macedonia and Poland in Ohrid (Macedonia), Zamość (Poland), Ptuj (Slovenia), Sopron (Hungary), Skopje (Macedonia), Wrocław (Poland), Podčetrtek (Slovenia) and in Struga (Macedonia). All the meetings were open for participants from other countries being neither Slovenians nor Macedonians nor Polish. Indeed, SAEM conferences gather people from some other countries, such as Japan, Hungary, Finland, Turkey, Belgium, Bulgaria, Croatia. The SAEM'24 symposium also welcomes researchers from all over the world.

Scope

The symposium SAEM'24 is aimed at the presentation of research work results, as well as the survey of works in applied electromagnetics area in a broad sense. The symposium is devoted to exchanging ideas, presenting the recent achievements and results. It is providing a wide forum for academics and engineers to discuss all aspect of electromagnetics and applications. Contributions are encouraged from, but not limited to, the themes and topics in the following areas:

- | | |
|--------------------------------------------------------|----------------------------------------------------|
| [1] Computational Electromagnetics | [7] E-mobility |
| [2] Applied Electromagnetics in Electrical Engineering | [8] Energy Efficiency |
| [3] Bioelectromagnetics and Electromagnetic Hazards | [9] Energy Management |
| [4] Coupled Problems and Applications | [10] Smart Buildings, Smart Cities and Smart Grids |
| [5] Optimization and Computer Aided Design | [11] Renewable Energy and Energy Storage Systems |
| [6] Electromagnetism in Materials | |

Contributions

Prospective authors are kindly asked to prepare a single-spaced one-column two page digest, including the title, authors and their affiliation, as well as the main content of the paper, results, figures and references. The digest files (both WORD and PDF) should be submitted by e-mail to the SAEM'2024 Organizing Committee (ankra.new@gmail.com, ewakorz@matel.p.lodz.pl) not later than the respective deadline announced below.

All papers will be reviewed on the basis of the digest. The Book of Digests will be published in electronic form on either pen-drive or CD, and will contain all the preliminary accepted papers, received by the specified deadline. The authors of the accepted digests will be asked to present their paper(s) in either poster or oral form.

On the basis of the digest and the presentation at the conference, a number of selected papers, will be published in Polish journal *Przegląd Elektrotechniczny*. The papers will be proceeded in accordance with the *Przegląd Elektrotechniczny* editorial policy
